- Psychology of design
- History of cinema
- Foreign literature

PROFILE

I am a front-end developer with passion for unique and modern approach in web development.

I recently finished a university course which revolved around many aspects of programming as well as business.

I was fortunate enough to be able to start getting professional experience while still studying, that experience has taught me that even when the workload is excessive I am able to deliver.

I am eager to consolidate my knowledge of web development tools, in addition to learning new approaches and solutions.

WORK EXPERIENCE

JUNIOR FRONT-END DEVELOPER

Common Wombat | Dec 2019 - present

- Coding components with React for websites and web applications
- Writing unit tests using Cypress framework
- Participating in a project based on Scrum methodology
